

SIGNATURE OF QUALITY

Maver's latest Pellet Waggler and Classic Float rods will appeal to all who demand the best kit for commercial work

COMMERCIAL match anglers who insist on the best will welcome Maver's new Signature rods. Coming in at 11ft and 12ft, the Pellet Wagglers deliver a full parabolic fish-playing action to target carp and F1s of any size. Superbly lightweight at only 141g and 157g, respectively, they really come into their own when

lightning-fast strikes are required. Both will cast floats of between 2g and 8g, and can be used with reel lines from 3lb to 8lb. Classy rod furniture includes high-quality SiC guides on the high modulus carbon blank, Fuji graphite screw reel fitting, EVA twist grip and a folding hook keeper ring. Maver's new 13ft, 14ft, 15ft and 16ft Classic Float rods have been designed and extensively tested by Welsh International Lee Edwards. They are intended primarily for river fishing, but will handle conventional waggler

or sliding float tactics on deeper natural stillwaters too. With their fine, hollow tips they are a dream to fish with when teamed with light lines and small hooks, and have already accounted for many winning match nets of dace and roach. Although finesse is paramount, the three-piece rods' middle sections have enough power to cope with chub and barbel from pacy swims. Instant response on the strike combines with a crispness that lifts line from the water in the blink of an eye. Key features at all four lengths

include comfortable EVA twist grips either side of the reel seat. These are slightly oversized to leave no gap between the handle and the user's palm. The upper reel seat grip is moulded to enable perfect placement of thumb and forefinger while holding the rod. Contributing to sleek looks and understated cosmetics, the guides, whippings, blank and reel seats across the Maver Signature range are of a uniform black - sure to attract admiring glances. **Price: Pellet Wagglers from £189.99, Classic Floats from £229.99**

LATEST GEAR FROM DRENNAN

DRENNAN MARGIN CRYSTAL RIGS

LIKE all Drennan pole rigs, these are hand-tied in the company's factories to exacting standards, with quality components, accurate shottage and well-tied knots. They suit open water, and are excellent in the margins too. Buoyant 2.5mm diameter float tips

will support a variety of baits, and the trademark Crystal bodies are unobtrusive and extra-tough. There are 12 rigs, in sizes 0.2g, 0.3g, 0.4g and 0.5g, with a choice of Hooker, Bandit or Pushstop bait attachment. **Price: £3.95**

ACOLYTE CARP 3.6m LANDING NET HANDLE

THIS superb new landing net handle was designed, developed and tested by five-times World Champ Alan Scotthorne. The 3.6m net pole is super-stiff and strong to give full control in the endgame against fast-moving carp. Pinned and reinforced thread ends do away with unnecessary dramas and partings of the way caused by twisting of the net. **Price: £89.95**

DRENNAN SF1 POLE FLOATS

THE latest additions to Drennan's superb pole float range are these SF1 and SFG2 models. The SF1's streamlined balsa body suits fishing with maggots and casters, while the SF2 has a teardrop shape, perfect for bulk shottage rigs. A key feature of both is interchangeable 1mm solid plastic tips in red, orange, yellow and black. These fit nicely into the bonded low-diameter plastic housing. With unbendable 0.5mm nickel-titanium steel stems, and eyes

glued into the side to help the floats settle correctly, they are virtually indestructible thanks to extra-tough acrylic paint finish. This prevents the line from cutting into the body of the float. The SF1 models come in sizes 0.1g, 0.2g, 0.3g, 0.4g, 0.5g and 0.6g, and the SF2s in 0.1g, 0.2g, 0.3g, 0.4g, 0.5g, 0.6g, 0.8g and 1g. **Price: £2.35 (both styles, all weights)**

"Drennan's 11ft and 12ft Acolyte Ultra Float rods are ideal for small lakes and rivers, as well as light commercial fishery work"

DRENNAN ACOLYTE ULTRA FLOAT 11ft AND 12ft

DRENNAN has added two more rods to its top-end Acolyte range. The 11ft and 12ft Acolyte Ultra Float models are ideal for small lakes and rivers, as well as light commercial fishery work. Lightning-fast, crisp actions combine with lightweight tips that allow hooklengths from as low as 1lb (0.08mm) up to 3lb 5oz (0.14mm) to be used with confidence on everything from silvers to F1s and smaller carp. **Price: £159 (11ft), £169 (12ft)**
